Malaysia

Oilseeds and Products Update

Palm Oil

Approved By:

Chris Rittgers

Prepared By:

Abdul Ghani Wahab

Report Highlights:

Following a strong final quarter, output for 2012/13 totaled 19.3 million tons, about a million tons greater than the previous year and record output for Malaysia. Despite the surge in output, end of year inventories were less than earlier forecast, drawn down by strong exports. PS&D tables are updated here to reflect the final marketing year data.
